Page 2 of 2

Chromosome matching activity sheet. The page contains 20 human chromosome pairs and 20 chimpanzee chromosome pairs, each with a corresponding portrait of a person or chimpanzee. The chromosomes are labeled with letters and numbers (A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z) and are color-coded (yellow, orange, red, grey, black, white) to facilitate matching. The human chromosomes are arranged in two columns, and the chimpanzee chromosomes are arranged in two columns. The matching activity involves identifying the correct human chromosome pair that matches the chimpanzee chromosome pair.
